No. 7.

EDITORIAL

It is inevitable in a college of comparatively recent foundation that certain functions and events should appear for the first time in the calendar. Speech Day and the general inspection, both of which occurred in the Autumn Term, imparted a certain distinction to the year now under review.

We are very grateful that Mr. Dean Acheson, former Secretary of State of the U.S.A., was able to come and perform two important functions on 21st October. In the morning he named and officially declared open Lincoln Hall, the second of our permanent halls of residence, whilst in the afternoon, at St. Andrew's Hall, Norwich, we listened intently to his speech at the prize giving ceremony. His request that the occasion should be commemorated by a day's holiday was much appreciated.

The general inspection, held from 11th - 14th November, was an occasion of a very different kind. It is perhaps an indication of the interest taken by the Ministry in the development of the College that a strong team was appointed to carry out the inspection. It is gratifying to know that their report, issued after an investigation into our life, work and play, was so favourable. Their verdict is proof that the College is progressing strongly along the right road.

OBITER DICTA

At the beginning of the Winter Term there were in the College 706 pupils, 396 boys and 310 girls. Of this total 109 were in the Sixth Form. Last September 164 new pupils were admitted.

This year the Head Boy is David Burdett, and the Head Girl Janet Fincham. The other prefects are Pamela Eglon, Anne Fawell, Mavis McNulty, Patricia Morris, Julia Pitcher, Heather Reed, David Clare, David Ayres, Robin Howes, Michael Hulme, John Marsh, John Matthews, Adrian Osler and David Tilson.

On the results of the General Certificate of Education (Advanced Level) Examination, 1958, Norfolk County Major Scholarships were awarded to Renate Borchardt, Geoffrey Benyon, David Burdett, David Clare, Louis Gidney, Michael Herring, David Howard, Emba Jones, Raymond Martin, Anthony Rogers, David Turner, William Wiskin.

During the year we said goodbye to Miss Abram and Sister Arrowsmith.

We offer our congratulations to :

Mr. and Mrs. Thornley on the birth of a son,
Mr. and Mrs. Swift upon the birth of a son,
Mr. and Mrs. Walker upon the birth of a daughter.

The following members of staff will be leaving at the end of the Summer Term : Mrs. Carter, Miss Godfrey, Miss Ough, Mr. Carter, Mr. Storer, Mr. Swift, Mr. Tremlett. We express our gratitude to them for their services to the College, and they take with them every good wish for the future.

We are very grateful to Mr. and Mrs. Goman for the cup which they have presented to the College for junior cricket.

At the County Junior Championships, held at North Walsham on 6th June, Howes set up a new javelin record with a throw of 193 feet.

Before the end of this term the first pairs of Fourth Form boys will have completed a 24-hour lightweight camping expedition. It is hoped that eventually the outing will involve some canoeing or sailing instruction.

The visits paid by boys and girls in Form III to the new swimming pool at Thorpe have enabled many to acquire skill and confidence. At the beginning of the present school year two-thirds of the pupils in Form III were non-swimmers.

Work on the fourth and fifth halls of residence has been commenced.

A party of girls is visiting Göttingen again this summer.

As we go to press the first university result achieved by a past pupil has come to hand. J. Brown has gained a B.Sc. with Honours (Class II Division I) in the School of Physics, Bristol University.

SPEECH DAY, 1958

The Autumn Term saw the first Speech Day in the history of the College. We were very privileged to have Mr. Dean Acheson, a distinguished American and Secretary of State for the United States from 1949 to 1953, to deliver the address in St. Andrew's Hall, Norwich on 21st October. He was accompanied on the platform by Major D. Allhusen, Mr. Noel Annan, Provost of King's, Cambridge, the late Mr. Sydney Dye, M.P., Col. Sir Bartle Edwards, Chairman of Norfolk County Council, Mr. E. G. Gooch, M.P., Mr. John Hill, M.P., The Very Reverend Norman Hook, Dean of Norwich, The Right Reverend M. P. G. Leonard, Bishop of Thetford, Mr. R. V. Metcalfe, Warden of Wymondham College, Alderman Sam Peel, Chairman of Norfolk Education Committee, Dr. F. Lincoln Ralphs, Chief Education Officer for Norfolk, and Rear-Admiral A. H. Taylor, Chairman of Wymondham College Sub-Committee.

Mr. Acheson, who was introduced by Alderman Peel, declared that democracy has nothing to do with levelling down. It means opening up opportunities and it is the business of education to see that the opportunities are given to those capable of taking them. The history of his country's founders showed that education was a tough business. Mr. Acheson continued, "Those capable of going forward must go forward because on them depends any progress we can make, and upon them the ultimate salvation of our societies will rest." He said that man, possessed of a brain more complicated than any of the demands that had yet been made upon it, must be given the chance to open new vistas of knowledge and to widen the sights of wisdom. "Everything we learn," stated Mr. Acheson, "unlocks doors for us behind which are treasure houses we never knew existed before." Mr. Acheson brought his address to an end by alluding to Lincoln Hall, the opening of which he saw as a resurrection and a renewal of the human spirit. It was, he declared, "a turning over to you of opportunities not only for carrying on what was done but being able to pick up and carry on to reaches which those of us who are older will never know."

The task of thanking Mr. Acheson for his address fell to Sir Bartle Edwards, who acknowledged the honour that the speaker had done to Norfolk in breaking his holiday at Cambridge in order to travel to Norwich and Wymondham.

The final stage in the proceedings was the presentation of prizes by Rear-Admiral Taylor.

At the beginning of the ceremony the Warden of Wymondham College reviewed, in his report, the first seven years of the life of the College :

"It is with very great pleasure that we, the staff and pupils of Wymondham College, welcome you here to our first speech day.

To-day, in the normal way, it would have fallen to me to review the work

and activities of one year, the school year 1957-58, but, instead, I shall look back over seven exciting and momentous years. This is an appropriate occasion to do so, for July saw the end of the beginning, in that those pupils who entered at the age of eleven in September 1951, when the College opened, left after taking the General Certificate of Education at Advanced level. But in presenting to you this record. I must of necessity omit much of the detail that would come within the scope of an annual report.

I shall first try to give you a review of these last seven years. The numbers in the school have grown rapidly, until, at the beginning of this year there were 706 on the roll, of whom 109 are in the Sixth Forms. Next year the school will be even larger, with a corresponding increase in the numbers in the Sixth Forms.

A steady stream of boys and girls, after taking Advanced Level subjects, is now passing through the school to Universities, Training Colleges and other places of Further Education, or going direct into industry. This year, seven boys, some of whom were awarded Norfolk Major Scholarships, have started on sandwich courses — courses which boys with a high standard of intellectual discipline and practical skill take as an alternative to University courses. Eventually they will be well qualified to meet the demands of industry as we move into a more technological age.

The results of the Advanced Level examination, which are printed on the programme, are very satisfactory. Three boys gained distinctions, fourteen pupils reached the standard required for a Norfolk County Major Scholarship award, and a further eleven reached the standard required for university entrance. Two State Scholarships have so far been awarded to pupils at the College, and, in December, our first candidate will be sitting for an Open Scholarship at Cambridge. At Ordinary Level the results, which generally were very satisfactory and outstandingly good in some subjects, showed that the quality of work this year was even higher than that of last year, when the boys averaged six passes each. This I regard as evidence of the importance attached to the formal work of the classroom, laboratory and workshop in the life of the school, for I will go so far as to say that without the hard core of exact knowledge and mental discipline which is acquired only through this medium, the other aspects of education about which I am going to speak are unable to take on their full meaning.

I should now like to mention some of our activities outside the classroom; there are some twenty-five flourishing societies, the two most recently formed being the Classical Music Society and the Girls' Chess Club.

All pupils are encouraged to join at least one society, since we value highly the contribution the societies make to the cultural life of the College. Apart from the normal activities, many of which spring from the work in the classroom, the

societies provide opportunities for the development of worthwhile associations with other schools and outside bodies. The Geographical Society includes amongst its activities well planned journeys to places of local interest, and expeditions to North Wales, the Lake District and other parts of the country.

One or two parties go abroad each year: this summer a party went to Switzerland, while a party from a school in Germany, with which we arrange exchanges, stayed at the College for a fortnight.

Regular visits are also made to the theatre, opera and Orchestral concerts.

Last year, for the first time, our choirs, junior and senior, took part in the Norfolk County Musical Festival. The Junior Choir was awarded a First Class Certificate, and the Senior, two First Class Certificates. The achievement of the Senior Choir was especially pleasing since it was compared with and judged by the standards of adult choirs.

The College Orchestra, from humble beginnings, now has over twenty players, including five members of staff. It has provided the music for the school's production of "A Midsummer Night's Dream" and each day accompanies the singing at Morning Assembly. We look forward to the Orchestra's first public performance to be given in the near future, and hope that it will give the same pleasure as the performance of "A Midsummer Night's Dream" which was so highly commended by the audiences and by the Press.

The standard of games and athletics, in the face of inevitable difficulties, has been improving steadily. This advance is due to the untiring work and keenness of the staff concerned. In 1954 Rugby Football was introduced at the Fourth Form level and below, and therefore this is our first full season; last year only one game was lost and the XV was the only school side in East Anglia to beat the Norwich Lions. Last year the Cricket side was unbeaten and only three matches have been lost in the last three seasons. The College was invited to play in the Scott Chad Cup Competition in 1954, and since that time we have won the cup three times out of a possible four. Undoubtedly the standard of Athletics is high. At the London A.C. Meeting, formerly the Public Schools' Sports, the team of seven from the College won one event, was placed fourth in two others, and in all gained six standard medals.

The girls, who have been more handicapped than the boys, owing to the lack of facilities, are taking rather longer to raise their general all-round standard. However, last year the Hockey XI won half its matches and the under 15 team lost only one game. All Netball and Tennis games were keenly contested and many were lost by only the narrowest of margins. The Rounders teams played consistently well throughout the season.

When I planned my report, I hoped to say something about future developments, but time will not allow me to do so. Nor is there time to give even in outline the adaptations of the temporary buildings which have been carried out or the equipping of specialist rooms to meet the needs of a growing school, except to say that we are now moving into permanent buildings. I feel sure that the difficulties, which these changes must bring, will be met with the same spirit as that which has triumphed over all the adversities that have had to be overcome during the forward march of the last seven years.

The laying of the foundation stone of Peel Hall in July 1955, by our Chairman today, was a landmark in the history of the College.

I cannot begin to do justice to what this school owes to the members of staff, and lately to the senior boys and girls. I want to thank them for the help and understanding which I have received from them and for all that they have given to the College. Fortunate indeed is the school that has men and women on its staff to set such a standard of loyalty and devotion, and fortunate too in that all our efforts have been encouraged by the co-operation of the governing body, many of whom are here to-day.

We are living at the beginning of a new age, with its own particular problems created by the technical and scientific advances of the last two decades. These problems in the years ahead can be solved for the benefit of the human race not only by trained intelligence, but by the trained intelligence of men of character who possess high ideals, which, I believe, will be more firmly held if they are grounded in Christian belief. At Wymondham College a wide range of opportunity is provided — in the classroom and outside it, and on the games field — for the growth and development of boys and girls as human beings, so that they are not only equipped to earn their living — and I certainly would not underrate the importance of that — but also to live full lives and to take their rightful place in society.

In conclusion, I should like to say how very honoured we are to have Mr. Dean Acheson at our first Speech Day. He represents so much that we esteem. We do not forget that our College was once an American hospital, and that the sons and daughters of members of the American forces stationed in Norfolk come to our school. It is indeed fitting that the new Hall which Mr. Acheson opened this morning should be named after the greatest American, Abraham Lincoln, whose ancestors came from this county, and indeed from quite near our College.

Your presence here to-day, Sir, and the plaque on Lincoln Hall which will serve as a perpetual reminder of it, will further strengthen the many ties which Wymondham College has with your country, ties which we hope will be of lasting value in the years to come."

CHAPEL NOTES

Number 35 is a Nissen hut. On the outside it looks like all the other Nissen huts but inside it is different; it is a "Holy Place", a place set apart for the worship of God. It is the College Chapel.

Upon entering it one gets that sense of permanence and peace which seems to be common to all places of worship. This does not come by chance; it is made and maintained by all; by those who worship, those who sing and make music, those who bring gifts, those who read the Word of God and those who preach.

During the past year the most memorable act of worship was undoubtedly our Remembrance Service on November 16th, when the Bishop of Thetford told us the inspiring story of the founding of Toc.H. His address was preceded by the "Ceremony of Light" carried out by some members of the Wymondham Branch of Toc.H.

We have also been privileged to listen to addresses by Dr. Ralphs, Mrs. Ralphs, Alderman Sam Peel, Canon Edwards, Canon Waring, the Archdeacon of Lynn, and Mr. Carter. To them all we send our sincere thanks.

The Archdeacon of Norfolk was unfortunately prevented by illness from visiting us. We hope his recovery will be speedy and complete.

The Rev. J. G. Morton, the Methodist Circuit Minister from Wymondham, gave a farewell address in the College Chapel on May 31st. He retires from Wymondham in the Autumn. During the past three years he has been a frequent and regular visitor to those in the College who belong to the Free Churches, and during that time he has endeared himself to us all. We shall see him go with great regret; but we wish him much happiness in his retirement.

To Father Cowin for the interest and help given to his growing flock we also offer our thanks.

Finally we must thank the Rector for the friendship he has offered to us all, for the extra services he has held in his churches to meet our growing needs, for the preparation of the candidates for Confirmation — eighty-seven this year — and for the little personal kindnesses shown to so many of us.

THE COLLEGE LIBRARY

The College Library now contains more than five thousand books, and this number is increasing annually by several hundred. All subjects studied in the school are covered, and the pupils' general reading is encouraged by sections including both works of fiction and biography, which alone account for at least six hundred books.

Twenty magazines are now taken regularly to cater for the varied interests of pupils. "The Times" is taken daily, mainly, of course, for the use of the Sixth Form.

At the end of the last school year it was found that the system of classification of books, which has been used for five years, was inadequate for the growing stock. It was therefore decided to adopt the Dewey Decimal System of classification, as used in most public libraries. The main advantages of this system are that it covers all conceivable subjects, and that it is much more comprehensible to the borrower than the previous system. Borrowers can now find a book on a given subject much more easily. The library is still divided into two rooms, the books in one of which are available to the Sixth Form and Staff only. The amount of time required to change over the system of classification was quite considerable, and this regrettably caused some inconvenience to the lower school. Unfortunately, it is impossible to name all helpers, but our gratitude is due to all those who have helped in any way.

When the books were re-classified, many of the old books, of which there were more than one or two copies in the library, were written off. All these had been left by the Training College, and have outlived their usefulness.

It was also decided to change the system of borrowing books. Each pupil now has his or her own borrower's ticket.

As with many services, the smooth, efficient running of the library depends to a very great extent on the close co-operation of all. We are pleased to report that this co-operation has so far been received and we hope that it will continue.

Every year assistant librarians from the Lower Sixth Form have helped in the running of the library. This year we have been greatly indebted to the following: Anne Potter, Rosemary Daisley, David Rudd, Lawrence Burdett and Richard Bell, who have worked under the supervision of Mr. Garrard.

HOUSE REPORTS

NORTH HOUSE REPORT

At the beginning of this year Miss Hawkyard took over as Housemistress, and we welcomed Miss Thornett, Miss Godfrey and Mr. Storer to the House.

Last summer Miss Brunning, who had been Housemistress since the foundation of the House, left us, and she and Mr. Hawkyard gave the House a party. This commenced with a reckless game of rounders in the rain, which the boys won. During the course of the evening dancing and more orthodox party activities were pursued. We would like to take this opportunity of thanking the House Staff for a most enjoyable evening.

The senior rugby team was very successful last season, beating East House 6-5 in a very thrilling final. The juniors, although playing well and with great team spirit, were less successful. The U-13 team were beaten in the semi-finals and the U-15 team in the final after extra time.

Although the senior girls had little success in hockey and netball, all the junior teams reached the finals. The 13-15 team won both hockey and netball.

In the Cross Country Competition, over a rough and muddy course, both junior and senior teams were placed second.

The most outstanding achievement by the House this year was winning for the first time the Inter-House athletics competition by an overwhelming number of points. We thus became the first House to hold the Athletics Cup presented to the College by the Old Wymondhians. Notable performances were achieved by several athletes, but it was through an overall team effort that we were finally victorious.

This has been a good year on the whole for the house and we hope these successes in sport will be an encouragement for the future. In conclusion, we would like to wish Miss Godfrey and Mr. Storer, who are leaving us at the end of this term, every success in the future.

ANNE FAWELL and MICHAEL J. HULME.

SOUTH HOUSE REPORT

This year we welcomed to the House, Miss Coulton, Miss Nixon and Mr. Rutherford. Unfortunately, however, we say goodbye to Miss Shephard who has done so much for the house during the last few years.

The girls have been especially successful in games during the past year. They won last season's tennis, under the excellent captaincy of Patricia Morris, and the senior netball final by 21 goals to 8. The hockey team, ably captained by Pamela Culling, was equally successful. The junior girls were not so successful, losing both hockey and netball games.

In athletics, the House results were not particularly spectacular, although good personal performances were achieved by Pamela Culling, who won three events for the girls, Gaze and Grogan, the latter gaining first place in three events.

On the rugby and cricket fields the boys have met with more success than last year. This is particularly due to the excellent leadership of Marsh, who captained both rugby and cricket teams. A victory was obtained early in the year, when the seniors won the seven-a-side competition. The standard dropped, however, in the seven-a-side matches, when the under-fifteen age group was the only team to win a final.

The cricket season saw a return to the standard set earlier in the year, both junior teams getting through to the finals. It is hoped that both these teams will be successful in the final.

In conclusion, we would like to thank all members of the House for their co-operation, which has made our year of office a most pleasurable one.

HEATHER REED and D. CLARE.

EAST HOUSE REPORT

Last year we wished Mr. Powell goodbye and in his place welcomed Mr. Terry as Housemaster. Newcomers to our House Staff were Mr. Chamberlain, Mr. Davies and, later in the year, Mrs. Gregory, who took Miss Curson's place.

We should like to extend our congratulations to Mr. and Mrs. Carter on their marriage last August, and wish them every success in their new life at Cambridge. Our congratulations are also due to Mr. Chamberlain on his engagement to Miss Shephard at Christmas.

On the whole, performances in sport this year have not been so successful as in previous years, but we must hasten to add that this is not due to lack of enthusiasm. The cricket matches were contested eagerly, the only noteworthy point being that the Under 15 XI won their match by a few runs. Although the girls' tennis team did well, they were unable to beat their opponents, but this was compensated for by a good victory from the rounders team.

The Rugby Football season opened with the seven-a-side competitions quite early in the Autumn term, and in these the Senior VII were beaten by a single point at the hands (and feet) of South House.

In the Cross Country competition, however, both our teams finished first. There was a fine individual win by Matthews, who led this team, and the rugby team, as reliably as always. Many thanks are due to him for our Rugby Football performances. In the Autumn Term the results achieved by the girls were not quite so encouraging, for our hockey team lost to South House in the final, whilst in the inter-house competition the netball team lost to South House.

In the Spring Term both the Bantam XV and the Colts XV romped home in their games, whilst the Senior XV were narrowly defeated in the finals by North House.

Athletics this year saw the end of our winning run, as we were beaten by North House, to whom we say 'Well done'. Diana Gosling again excelled herself by beating her own javelin record. The junior high jump record was broken by Susan Rudd, and Clarke P. S. threw the cricket ball a record distance. To these

three we offer our congratulations, and hope that performances of this kind will be emulated in the future.

We would both like to say that our year of office has been a memorable one to us, and we wish our successors and East House the best luck for the future.

JULIA PITCHER and DAVID TILSON.

WEST HOUSE REPORT

We welcomed to the house at the beginning of the year Miss Holm, Miss Ough, Miss Chipperfield and Mr. Graham.

At Christmas we said goodbye to Miss Smith, our matron, who left us after five years in our house. We should like to wish her every happiness in her married life.

At the close of the Summer Term East boys and West girls met to make a farewell presentation to Miss Haye, and to present Mr. Carter and Miss Neeves with a wedding gift. On the same evening the boys challenged the girls to a rounders match in which the boys were easily victorious.

On 21st October we were very honoured when Mr. Dean Acheson came officially to declare open the second boarding house, naming it Lincoln Hall. It is a day that we shall be proud to remember.

At Christmas the girls entertained the boys to a social evening in Lincoln Hall. After supper we sang carols and Mr. Garrard's group sang some traditional Christmas songs. We were also entertained by the madrigal group.

Although the girls did not put up an outstanding performance on the hockey field, we had several very close matches in which we were defeated only after extra time. The one notable victory in the netball season was the junior girls' win in the finals against North House. The boys achieved two victories in cricket last year.

During the rugby season our teams were handicapped by illness. We would like to congratulate those boys who turned out to complete our teams on these occasions. They put up a fine performance.

During the athletics term the House did well in standards. Our efforts on Sports Day, however, did not prove quite so successful. We would like to thank Janice Jongman and David Whyte, our captains, for their commendable enthusiasm at all times.

We congratulate Robert Rowell on breaking the Hull University shot record.

This term we say goodbye to Miss Ough and Mr. Tremlett. Miss Ough is leaving us to get married, and we wish her every happiness. Mr. Tremlett is leaving the House after four years, and we wish him every success in his new post at Exmouth.

JANET FINCHAM and DAVID BURDETT.

SPORT

ATHLETICS

Summer Term 1958

The Area Sports were held at Loddon last summer, and afterwards, when the S.E. Norfolk team was nominated for the County Sports at Downham Market, the list included more College athletes than ever before. The two coachloads did not return empty-handed, for once again the South-Eastern Area teams won the Colman and Fermoy trophies. The latter was entrusted to our custody.

Eventually, when the Norfolk Schools' team was announced, the following were selected for the English Schools' meeting at Houghton-le-Spring, Durham: D. Gosling (Jav.), Bennett (H.J.), Briston (H.S.J.), Burdett, L. (L.J.), Everett (L.J.), Howes (Jav.), Newman, B.E. (L.J.), Reynolds (P.V.) and Smith, A. (Hurdles). Howes won his event, whilst Reynolds and Bennett were 4th and 7th respectively. The remainder acquitted themselves creditably to enable Norfolk to win the Minor Counties Trophy.

During the summer holidays a small team competed at Hellesdon A.C.'s inaugural meeting, and Howes, Everett and Newman, B.E., represented Norfolk in the Hibberd Cup match with Suffolk.

Spring Term 1959

House Athletics this year saw the introduction of a 17-19 years age group for boys, the Senior Pole Vault, and Junior 880 yards events. On Track Finals Day the first batch of our new hurdles made its appearance. Now that we have a complete set of our own hurdles our standard of hurdling must improve. To both Mr. Seeley and Mr. Mullenger we owe our thanks for the advice they offer, and the supervision they carry out on the construction and repair of certain items of athletic equipment.

During the term we received a coaching visit from four members of the Cambridge University Athletic Club. The afternoon they spent with us proved to be a useful stimulus to our athletic training.

The annual visit to the Schools Meeting at the White City Stadium saw us with a continual interest in the two-day programme. The general standard of performance there was as high as ever — the mile was won in 4 mins. 15.6 secs. — and we were impressed by the dedication displayed by many of the competitors. First-rate results are only obtained in this manner.

Our own athletes did as well as expected in the cold and wind-swept arena. Howes was 2nd in the Javelin, whilst Everett and Adkins gained standards in the Long Jump and Triple Jump respectively. Other members of our team were

Bennett, Burdett D., Williamson, Burdett L. and Beardsley.

We are now looking forward once more to the various summer meetings. Already we have tested some of our senior strength out at Hellesdon A.C.'s Inter-Club event. Interest in Athletics continues to flourish at the College; it is to be hoped that it will be maintained.

CRICKET

1st XI

The 1958 season was the most successful the College has ever had. Of a total of thirteen matches, eight were won and five drawn.

The last match proved to be a fitting climax to a successful season. This was the final of the Scott Chad Cup against King Edward VII Grammar School, King's Lynn. King's Lynn batted first and scored 142 runs for 8 wickets before they declared. The College began badly, losing 5 wickets for 64 runs. With 8 wickets lost for 119 runs all seemed lost, but steady batting by Burdett enabled him to hit the winning run with four minutes left to play.

The College had a competent pair of opening batsmen in Syrett and Frohawk, and Young proved to be a valuable all-rounder.

Colours were awarded to Nicholls, Young, Frohawk and Beales, and half-colours to Smith, Burdett and Adkins.

With eight of last year's 1st XI remaining, the College made a very good start to the 1959 season by winning the first five matches. These include wins against Downham Market in the first round of the Scott Chad Cup, Langley School, and a narrow win against Norwich School. In this last game we were set to score 102 runs in 95 minutes and the winning run was scored in the last over.

We express our gratitude to Mr. Seeley for the time he devotes to the 1st XI, and to Mr. Boswell who comes to the School once a week to coach the teams.

A. P. MALT.

RESULTS

- v. Langley School. College 149 for 9 dec. Langley 54. College won by 95 runs.
- v. City of Norwich School. College 152 for 6 dec. C.N.S. 53 for 5. Drawn.
- v. Norwich Natives. College 66. Norwich Natives 3 for 2. Rain stopped play.
- v. Thetford Grammar School (1st round, Scott Chad Cup). College 27 for 2. Thetford 26. College won by 8 wickets.
- v. Ingham and District. College 97 for 9. Ingham 133. Match drawn.
- v. Secretary's XI. College 79 for 6. Secretary's XI 75. College won by 4 wickets.
- v. Paston School. College 55 for 5. Paston 107. Match drawn.
- v. Gresham's School. College 59 for 4. Gresham's 58. College won by 6 wickets.
- v. Fakenham Grammar School (Semi-final, Scott Chad Cup). College 37 for 1. Fakenham 35. College won by 9 wickets.

- v. Woolverstone Hall. College 107 for 2. Wolverstone 104 for 7 dec. College won by 8 wickets.
- v. King Edward VII Grammar School, King's Lynn (Final, Scott Chad Cup). College 143 for 8. King's Lynn 142 for 8 dec. College won by 2 wickets.

BATTING AVERAGES

Young	30.9
Rowell	18.5
Nicholls	17.0
Frowhawk	13.6

BOWLING AVERAGES

	<i>Overs</i>	<i>Runs</i>	<i>Wickets</i>	<i>Average</i>
Young	168	261	45	5.8
Malt	129	272	27	10.1
Syrett	60	133	11	12.1
Beales	76	241	19	12.6

2nd XI

Owing to bad weather, the numbers of fixtures played by the 2nd XI was much fewer than last season. Matches against Culford School, King Edward VI G.S. (Bury) and Norfolk School of Agriculture had to be cancelled, and that against Norwich School was abandoned when the visitors had scored 22 for 1.

The four matches which were completed were each won in a fairly convincing manner, with all those called upon to represent the team giving of their best.

The team was selected from the following : Adkins, Whyte N., Palmer, Duffy, Willmott, Howes, Moulton, Gallaway, Hall, Read, Mackenzie, Walker, Burdett, Marsh and Osler.

RESULTS

- v. Norfolk School of Agriculture. School of Agriculture 44 (Gallaway 4 for 7). College 46 for 6. College won by 4 wickets.
- v. City of Norwich School. City of Norwich School 78 (Whyte 5 for 10). College 80 for 4. College won by 6 wickets.
- v. Jarrolds S.C. Jarrolds S.C. 29 (Gallaway 5 for 9). College 31 for 1. College won by 9 wickets.
- v. Diss Grammar School. Diss G.S. 40 (Marsh 5 for 7, Whyte 4 for 11). College 42 for 4. College won by 6 wickets.

Under 15 XI

The standard reached during the season was not as high as that achieved in the previous one. Despite this all our matches were keenly contested; our one exception being against Norwich School.

Mayes and Reddy were our top scorers. McGowan and Corbin bowled well

on most occasions, the former being very consistent. Dunton captained well throughout and kept wicket. In addition the following played during the season : Palmer, Stone, Clare R., Canham, Burdett L., Rowell, Rowson and Smith A.

RESULTS

- v. Langley School. College 108. Langley 61. College won by 47 runs.
- v. City of Norwich School. College 93. C.N.S. 25. College won by 68 runs.
- v. Thetford Grammar School. Thetford 12. College 13 for 3. College won by 7 wickets.
- v. Culford School. Culford 53. College 39. College lost by 14 runs.
- v. Langley School. College 114 for 7 dec. (Mayes 28, Reddy 30 n.o.). Langley 49 for 3. Match drawn.
- v. Norwich School. College 9 for 7. Match abandoned.
- v. Fakenham Grammar School. Fakenham 24. College 26 for 6. College won by 4 wickets.
- v. Woolverstone Hall. Woolverstone 36. College 40 for 3 (Mayes 21 n.o.). College won by 7 wickets.

Under 14 XI

The following were the results in the 1958 season :—

RESULTS

- v. Thorpe Grammar School. Won by 9 wickets.
- v. Thetford Grammar School. Won by 2 wickets.
- v. Langley School. Won by 38 runs.
- v. Paston Grammar School. Lost by 8 wickets.
- v. Diss Grammar School. Won by 7 wickets.

The team was chosen from : Gunton (captain), Grogan, Bloomfield, Strickland, Gaze, Milne, Beardsley, Sargent, Attoe, Catchpole, Sumner, Sadler and Starling.

RUGBY FOOTBALL

First XV

The 1st XV enjoyed a fairly successful season, winning eight out of thirteen games played. A greatly strengthened fixture list, including matches with seven club sides, ensured opposition equal in size and strength to the College XV. Unfortunately, a large number of injuries, especially amongst the backs, disrupted the unity of the team towards the latter half of the season.

During the Autumn Term, overwhelming victories were obtained against most of the opposing club and school sides. Especially creditable were the defeats of the West Norfolk and Norwich Lions' XV's. In these games the College subdued larger and more experienced opponents by strong tackling and tireless covering, and took almost every opportunity to score which came their way.

Two games were lost during this period, both by slender margins. A fine open game against Selwyn College, Cambridge, 1st XV was lost 9-3, mainly due to the

fine place kicking of the Selwyn full-back. During this game Matthews was injured and was absent for all but two of the remaining games of the season.

In the other defeat, that at the hands of Woolverstone Hall, the College played magnificently, yet lost 12-8. It was certainly one of the finest games seen at Wymondham, both teams playing with a fervour which will long be remembered.

The three games of the Spring Term were lost by narrow margins. Especially close was the 9-8 defeat by Norwich Lions who fielded half of the County XV.

The strength of the College side again lay in its pack. Very heavy and strong, they were only seriously tested in club matches, and even then gained a sufficient share of the ball. Howes, Matt and Frowhawk formed an outstanding front row, both in the tight and in the loose, whilst Heuvel and Willmott developed into strong all-round forwards, ensuring a good supply of the ball in the line-out. Williamson improved greatly as the season progressed and by a very correct technique became the team's leading place kicker.

The backs began well, and impressed by their hard, strong running and improved handling. But injuries completely disjoined them during the latter half of the season.

At half-back Marsh and Young proved a sound combination and an effective link with the speed on the wings. Beales was an elusive runner at centre with a useful dummy, but is still lacking in real pace. Matthews began well, but spent most of the season nursing a damaged knee. Frowhawk is to be commended on his captaincy during Matthew's absence.

Smith proved the most effective back, using his speed and strength to advantage. He showed, too, a greatly improved defence. Everett and Cook both possessed speed and opportunism in following the kick ahead, but both need more determination in going for the line.

Eleven of the side represented the Norfolk Schools in their various matches, whilst Howes, Malt, Frowhawk, Beales and Smith are to be congratulated on their selection for the Eastern Counties Schools XV.

The following awards have been made:—

Full Colours: J. Matthews, M. Frowhawk, R. Howes, P. Malt, J. Beales, J. B. Marsh, A. Smith.

Half-colours: C. Heuvel, D. Everett, T. Young, D. Willmott, B. Williamson, T. Nicholls, R. Cook, D. Hubbard, W. Burdett, E. Peacock.

D. F. STORER

Second XV

Last season the 2nd XV had to make few concessions in the way of players to the premier XV and, consequently, what might have been a heterogeneous collection of players developed into a team with its own character. Some of the quirks of that character, such as passing the ball into a vacuum instead of the arms of attendant colleagues anxious to ground it behind enemy lines, need not be stressed in the report of a successful season. Suffice it to say that the main fault was a lack of ideas in attack when confronted by a resolute defence, witness the match against Diss R.F.C.

The main strength of the team lay in the forwards, once they had realised the efficacy of staying down and shoving. This lesson they learnt against Langley School, when, owing to some reformed packing in the second half, they were able to convert a nine points deficit ten minutes from time into a 13-9 win. Under the new rules, however, the forwards' job did not end with pushing. In the two best games, against Woolverstone Hall, they had to cover leagues of ground in order to contain very skilful opponents. Individually, Clare impressed by lanky dominance in the line-out, Cooper was a terrier in the loose, and Ayres, as a captain should, showed an urging thrustfulness whenever play developed.

The backs possessed speed and, especially while Cook and Morgan were together in the centre, developed cohesion. Atkins, at fly-half, improved considerably in powers of generalship and played some fine games towards the end of the season. After Atkins, Duffy was the most improved player, owing probably to the stimulus of Walker's challenge for the scrum-half position. Behind them all Mason sometimes sacrificed certainty of defence for the thrill of attack, but mercifully his goal-kicking worked whenever it was really needed.

Team from :— Ayres, Clare, Dunton, Fenton, Bennett, Hall, Pyle, Waller, Freeston, Cooper, Duffy, Walker, Atkins, Rudd, Morgan, Sharpe, Mason.

RESULTS

v. Lowestoft & Yarmouth RFC	Won	37 - 5
v. Langley School	Won	13 - 9

v. Woolverstone Hall	Drawn	6 - 6
v. Woolverstone Hall	Won	11 - 6

B. TAYLOR

Colts XV

The season was the most successful one experienced by any Colts XV in the Rugby history of the College. The team won every match and, in addition, seven of its members represented the county.

The success, although due to a number of factors, was primarily attributable to the enthusiasm, determination and fitness of all the players and the reserves. Another factor was the excellent team spirit which was apparent at all times. There was a definite improvement in the handling of the ball and in the tackling throughout the season. It was most pleasing to see the way in which the individual members and the team as a whole used their initiative and exhibited the finer art of the game to exploit the weaknesses of their opponents.

It would be invidious to single out any one member of the team for praise, but mention must be made of Gunton's captaincy. By his personal example on and off the field he contributed in no small measure to the team's success.

Team :— Bacon, Baker D., Beardsley, Bray, Catchpole, Clarke R., Gaze, Gilbert, Gunton, London, Postle, Sargent, Smith R., Strickland, Tolliday.

Also played :— Attoe, Baker A., Bessie, Patten.

The following represented the County :— Beardsley, Catchpole, Gaze, Gunton, London, Postle, Sargent.

RESULTS

v. Felixstowe Grammar School	Won	22 - 11
v. Langley School	Won	21 - 11
v. City of Norwich School ...	Won	40 - 14
v. Norwich T.S.	Won	28 - 3
v. Cambridgeshire H.S.	Won	39 - 0
v. Norwich School	Won	30 - 6
v. Stowmarket G.S.	Won	11 - 10
v. Woolverstone Hall	Won	11 - 0
v. Woolverstone Hall	Won	18 - 5

Junior Colts XV

The team had a very successful season, losing only one match. The standard of play improved as the season progressed and in the last two matches the three-

quarters, previously rather overshadowed by the forwards, showed more skill in their handling and more determination in their running.

Baker proved a capable captain and his enthusiasm and example on the field contributed to the success of the team.

The team was selected from the following :— Amis M., Cole R., Lawrence, Moore, Reynolds, Jolly, Boast, Baker A. (captain), Farrow, Clarke P., Dew, Nicholls, Soanes, Sills, Goldsmith, Fincham, Mason D.

Touch Judge : Sayer M.

RESULTS

v. Felixstowe Grammar School	(A)	Won	9 - 3
v. Norwich T.S.	(A)	Won	55 - 0

v. Framlingham College ...	(H)	Won	29 - 0
v. Stowmarket G.S.	(H)	Won	28 - 6

Under 13 Bantams

The Bantams enjoyed a very successful season, finding little difficulty in winning all their matches. Corless led the team well and played a major part in its success by his forthright play. The forwards fought hard at all times and made the most of their opportunities. Howard at scrum-half gave the backs good service on all occasions, and the running of Shannon, and the wingers Abbatt and Rutland, led to many tries. Hegarty kicked well at fullback and in later matches made use of his speed to help the three quarter line in attack.

There was a very healthy team spirit throughout the season and every player invariably gave of his best. Their performances bode well for the future.

v. Stowmarket G.S.	(A)	Won	25 - 0

NETBALL, 1958-59

First VII

Once again the fixture list was not as long as we should have liked and several games were cancelled. However, the 1st VII had a successful, if short, season. From the beginning they took advantage of the added speed which the new rules allow. Their speed up and down the court did much to ensure good scores in all games played. This was particularly so in the game against Northgate Grammar School. This match was undoubtedly the best of the season. Though several goals down at half-time, our team showed no signs of yielding to their opponents and towards the end of the game the score was even. Up to the final whistle it was

anyone's game, goals being scored in quick succession first by Northgate, then by Wymondham.

The success of the team was due, on the whole, to their anticipation of each other's movements; because of this they learnt to play as a team. It was quite clear from all the matches that there were no weak links in the team. This made the awarding of colours very difficult. Finally full colours were re-awarded to Pamela Culling, new colours to Janice Jongman, and half-colours to Jacqueline Warren.

Members of the team were sorry to lose their captain, Ann Payne, half-way through the season. It was fortunate that they had another enthusiastic and helpful person to take over in Pamela Culling.

The following girls played in the 1st VII :— P. Culling, D. Gosling, J. Jongman, V. Preston, J. Warren, L. Taylor, J. Colman.

RESULTS

v. Norwich Training College	Won	20 - 7
v. Notre Dame	Won	23 - 12
v. Yarmouth Technical H.S. ...	Won	15 - 11
v. Northgate Grammar School	Lost	15 - 17

2nd VII

In spite of many team changes at the beginning, the 2nd VII had a successful season. They won all three matches played. Against Notre Dame there was little for the defence to do; however, it was not so in the last two matches, and Bella Benton must be commended for her good play.

The following girls played in the 2nd VII :— P. Morris (Captain), M. Wilson, H. Dennis, T. Sharpe, E. Bowers, M. Utting, B. Benton.

RESULTS

v. Notre Dame	Won	13 - 4
v. Yarmouth Technical H.S. ...	Won	9 - 5
v. Northgate Grammar School	Won	12 - 8

Under 15 VII

The junior results were a little disappointing and this may be attributed to lack of match experience. Nevertheless, the games were closely contested, with the exception of the fixture against Norwich High School when we were well beaten, their passing and shooting being very much more accurate than our own.

The following girls played in the Under 15 VII :— A. Davies (Captain), A. Stollery, A. Reeve, J. Thorne, D. Gordon, M. Woodrow, J. Barber, J. Chubbock.

RESULTS

v. Notre Dame	Lost	9 - 10
v. Yarmouth Technical H.S. ...	Lost	8 - 15
v. Northgate Grammar School	Won	8 - 6
v. Norwich High School ...	Lost	4 - 19

Under 14 VII

The team did not have a successful season, but members must be commended on their enthusiastic approach to the game and their ability to play hard up to the final whistle, even if they were many goals down. In one game, however, the tables were turned. Against Northgate Grammar School they had it all their own way, and the shooters were finally rewarded for their many hours of practice by a score of 22-0 goals.

The following girls played in the Under 14 VII :— V. McCafferty, J. Reynolds, J. High-Caston, S. Calver (Captain), S. Oxley, S. Cordle, B. Winter, S. Payne, P. Fuller, M. Crawford.

RESULTS

v. Notre Dame ...	Lost	6 - 8
v. Yarmouth Technical H.S. ...	Lost	5 - 7
v. Northgate Grammar School	Won	22 - 0
v. Norwich High School ...	Lost	1 - 11

HOCKEY

The 1st XI did remarkably well this season in not losing any of their matches. As a result of this fine effort the whole team received half-colours, with the exception of J. Colman and P. Culling who were awarded full colours. A good team spirit was obvious almost from the first match. The standard of play tended to deteriorate slightly towards the end of season mainly owing to the lack of stronger opposition. Individual techniques still need a great deal of attention to combine with the speed and stamina already achieved.

The 2nd XI results were not quite so striking but nevertheless the team had a good season. They were unlucky, as usual, in having to lend players to the 1st XI when necessary, and so found working together as a team more difficult.

Both junior teams show great promise, but again far more attention must be paid to techniques if that promise is to be fulfilled. Stronger opposition would help both the under 15 and under 14 teams to show their worth, for these teams produce a better standard of play when they are under pressure.

RESULTS**1st XI**

v. Fakenham Grammar School	Won	4 - 0

TENNIS, FOR THE SEASON 1958-59

The teams had a fairly successful season in spite of four cancellations in matches, and although the weather was not always kind, the teams had some very good matches with close results.

At the end of the season Rosemary Green was awarded full colours and Patricia Morris and Jennifer Williams were awarded half-colours.

The following girls played in the 1st VI:— Rosemary Green (Captain), Patricia Morris, Jennifer Williams, Bette Fendley, Elizabeth Bowers and Ann Payne.

		13 - 14

Our thanks go to Miss Lloyd who so willingly gave up her time to helping and coaching the teams.

SCHOOL MUSIC**JUNIOR CHOIR**

This year has been a busy one for the Junior Choir. In addition to the usual singing in Chapel, we have performed on Speech Day, at last year's village fete, and many members took part in the Operetta at Christmas. We are now tackling more difficult material, including two-part singing, more exacting unison work and psalm-singing. A good standard has been maintained, and we look forward to extending our activities during next year.

EXAMINATIONS

The following pupils have been successful in the Associated Board examinations in music.

Roger Reeve	Violin Grade II (pass with credit)
Hilary Dewhirst	Violin Grade I (pass with credit)
Roland Clarke	Violin Grade II
Gillian Watson	Pianoforte Grade V
Elizabeth Betts	Pianoforte Grade V

THE ORCHESTRA

This year the number of players in all sections has gradually increased and we now number twenty-eight players. We are pleased to see the rapid development of the woodwind and brass section under the tuition of Mr. McKenna, and this section is improving rapidly and shows great promise for the future. Clarinets, flutes, trumpets, horns and a trombone are now playing their parts in the orchestra, and add tremendously to the general effect, even though most of the players are beginners. We are greatly indebted to Mr. Banham who is both teaching the 'cellists and leading the string bass section, and to Mr. Thornley and Miss Hawkyard who are leading the first violins.

Our choice of music has been mostly experimental, in order to suit the varying ability of our players, but we continue to enjoy ourselves, and look forward to a further extension of our activities and another public performance next year.

THE SENIOR CHOIR

Much valuable, varied, and vigorous work has been done by the Choir this year. We started the Autumn Term with thrice-weekly rehearsals for the Operetta. Later on in the same term we paid our annual visit to St. Botolph's Church for the Christmas carol service.

With our increased numbers we have played an important part in worship in our College Chapel, especially at the Easter carol service. Among the items we have performed are the well-known hymn "Lead Kindly Light" and Mozart's anthem "Ave Verum".

Throughout the year we have had our regular meetings on Friday afternoons, when we have sung a wide variety of works ranging from the George Mitchell Glee Club arrangement of "Old McDonald had a Farm" to William Sterndale Bennett's "God is a Spirit".

We should like to record our thanks to Mr. Banham for his help with the tenors, Mr. Appleyard for his help with the basses, and Mr. Wrench, without whose help the work of the Choir would be difficult.

"DOWN TO EARTH"

At the beginning of the Autumn term, rehearsals began for the Christmas entertainment, Mr. Wrench's second opera, "Down to Earth". After being charged to secrecy, members of the Senior and Junior Choirs received copies of the words and music.

Four members of Staff took parts in the opera; Mr. Garrard as the "Bold Bad Boffin", Mr. Banham as Ferrule, his chief assistant, Mr. Bower as King Kappa,

with Mr. Tremlett as his chief assistant.

In all, six performances were given, the first to the Senior school, the second to the Junior school and the remaining four to the general public and the Governors of the College. A very favourable press report was given, and extracts from "Down to Earth" have been broadcast on the radio.

Much of the success of the undertaking was due to Mr. Staveley and Mr. Carter who organised the seating arrangements, Miss Nixon and Miss Thornett who helped with the dance sequences, Miss Ough who directed the make-up, Mr. Freeman and Miss Colls who organised the scenery and costumes, and Mr. Garrard, the producer. We also thank all those who helped in so many other ways.

Last, but, of course by no means least, we record our particular gratitude to Mr. Wrench whose efforts resulted in so much enjoyment for performers and audience alike.

BIRD WATCHERS' CLUB

Several new members have joined this year, and Kennedy (IIB) was appointed as Secretary.

Although bird-watching is generally most successful when the watchers are few in number, the Club was fortunate in making several rewarding excursions on the premises during the Autumn and Spring Terms. Members were able to observe at quite close quarters many of the Winter migrants, which were present in some numbers. In all, some eighty species of birds have now been recorded at the College. A newcomer this year was the Golden Plover.

P. BANHAM.

CHAD CLUB

The first meeting of the year was a business meeting at which the committee members were elected as follows:—

Secretaries : Judy Colman, John Galloway.

Committee Members : Barbara Stacey, Jackie Warren, Michael Bray, Derek Morgan.

During the Autumn Term we had several interesting meetings. "Any Questions", in which a team of staff and members of the society answered questions from the floor, was the first. At this meeting, Miss Holm, Mr. Graham and Mr. Storer were the staff panel members. A debate was held on the motion "That the woman's place is in the home", while later in the term there was a hat discussion. For the last meeting we combined with the Semi-circle Society in a general election, which proved to be very realistic.

During the Spring Term, we had a talk with coloured slides by Miss Abram on aspects of her world tour; impersonations by Mr. Garrard and Mr. Storer; a debate on the motion "That divorce should be made illegal". The last meeting of the year was a combined meeting with the Semi-circle once again. The Mock Trial was enjoyed by everybody and was a good finishing point for the year.

J. R. COLMAN.

CHESS CLUB

Many stalwarts of the Club will be leaving us this year and we thank them for the valuable service they have rendered. At the same time, we hope that their successors will be forthcoming, and that they will bring a more academic approach to the game. On far too many occasions the Chess teams have proved themselves sadly lacking in their knowledge of "bookwork" and elementary principles of the game. The success of the girls' team is pleasing, but will not be maintained unless more support is forthcoming. It is encouraging to find that we now play a few of our matches at home, and we hope that soon all our opponents will visit us regularly.

RESULTS

1st Team

v. Norwich School	College lost by 3½ games to 2½
v. Norwich School	College lost by 5 games to 1
v. City of Norwich School	Match tied: 3 games each
v. Hewett School	College lost by 7 games to 0

2nd Team

v. Norwich School	College lost by 4 games to 2
v. Hewett School	College lost by 4½ games to 2½
v. Hewett School	College lost by 6 games to 0
v. Hewett School	College won by 5 games to 0

Girls' Team

v. Dereham High School	College won by 5 games to 1
v. Dereham High School	College won by 3½ games to 2½

D. T. WALKER.

FENCING CLUB

Great enthusiasm has been shown at this year's meetings. In February, four Lower VI members attended a weekend coaching course in Norwich, which proved very interesting and instructive.

For the second time the Club has been asked to provide a Fencing Display as part of the Education Department's exhibit at the Royal Norfolk Show. This, and other displays in which the Club occasionally takes part, are helping to increase the interest in Fencing in the county.

P. BANHAM.

GEOGRAPHICAL SOCIETY

The attendances of the society this year have shown an increase over those of last year. At the first meeting Society Officers and the Committee were elected and members enrolled. Dr. Lincoln Ralphs agreed to take the post of Honorary President and the other officers elected were:—

Chairman : Mr. A. C. W. Chamberlain.

Treasurer : W. D. Burdett.

Secretary : T. E. Young.

Committee Members : Michal G. Utting, Heather A. Reed, T. F. Nicholls,
D. T. Everett.

It was unanimously agreed by the committee that films should alternate with talks which would be given by staff and pupils. The programme included lectures by Miss Abram, Miss Colls, Mr. Dudley, Mr. Graham, Mr. Chamberlain, Burdett, Whyte and Kett. The highlights of the year were the showing of Walt Disney's famous wild life film "The Living Desert", and the Annual Dance, which was again enjoyed by all present. At the time of going to press we are awaiting the account by Osler and Guildford of the Easter field trip to Dorset.

T. E. YOUNG.

NATURAL HISTORY SOCIETY

For the first time the Society was open to everyone in the school, and its members have enjoyed a very eventful year. During the darker afternoons of the Autumn and Spring Terms the construction of soil monoliths was undertaken. For practice several were built up from a profile dug in the College grounds, and later we each made one from a particular spot in our own localities. The completed monoliths now serve to show the diversity of Norfolk soils.

With lighter afternoons we turned to outdoor activities and continued the Alexanders programme started last year. Seed had been collected during the early autumn from plants growing near Brancaster, and during the Easter holidays these were planted at 80 different stations throughout Norfolk. The help given by the 1st Forms is much appreciated and it is hoped they will maintain their interest so that the distribution of this plant can be better understood.

During the course of this term we have begun a study of insects inhabiting the foliage of selected trees, to determine whether each species of tree supports its own particular population of animal life. It has been possible also to have our first meeting outside the College; Redgrave Fen near Diss was visited, and the areas of acid bog proved very interesting. Various curious plants were found, among them

such carnivorous species as the Sundew which, by means of sticky glandular hairs on the leaves, catches flies; and also the Bladderwort which traps and digests small water animals.

The results of last year's trapping of the Long Tailed Field-Mouse, Common Shrew and Bank Vole were published in the Mammal Bulletin of the Norfolk and Norwich Natural History Society.

During the Summer holiday the Society is hoping to arrange for large scale investigation into the distribution of squirrels in the county. The findings are to be forwarded to the Ministry of Agriculture who are requesting such information.

Many thanks are due to Mr. Terry for spending so much time guiding the activities of the Society.

ANTHONY ELLIS.

SIXTH FORM SEMI-CIRCLE SOCIETY

This year the Warden kindly accepted the invitation to renew his Presidency of the Society, and David Burdett was re-elected Chairman. The secretaries were Caroline Watts and David Rudd, whilst other committee members were: Diana Gosling, Valerie Preston, John Beales and David Whyte. Meetings were held every other Monday.

Four debates were held, on the following motions:—

“This House believes that freedom no longer exists in Britain”, proposed by Richard Bell and Laurence Burdett, and opposed by Julia Pitcher and David Ayres. (Defeated by 13 votes to 10, with 4 abstentions.)

“That the best things in life are free”, proposed by David Whyte and Rodney Cook and opposed by Janet Fincham and Pamela Eglén. The motion was defeated by 17 votes to 10, with 4 abstentions.

At one meeting, Mr. Storer gave an outstanding dramatic narration of Dylan Thomas's “The Outing” and Mr. Garrard, with fierce Dickensian beard and gusto, read an extract from “Oliver Twist” and one from “The Pickwick Papers”. “Ask Me Another”, in which a team from the school opposed one from the staff, provided an interesting contest, which the staff won by 32 points to 23½. We were also entertained with a ‘Soiree Russe’ by Mr. Bower, who played some delightful music by various Russian composers.

Two combined meetings with the Chad Club were held. The first was the Wymondham College By-election, the result of which was:— John Beales (Communist) 72 votes; Adrian Osler (People's Independent Neo-Euthanasian Anarchist

Proletarian Party for Leftist Evolutionists, i.e. Pineapple or Anarchists) 71; Trevor Sharpe (Conservative) 51; David Whyte (Liberal) 11; Mavis McNulty (Labour) 4. Some communist supporters — and others — were thrown out for heckling.

A session of the "Morley Assizes" constituted the second combined meeting. Mr. J. Graham generously allowed himself to be charged with the murder of Ernest Barber on 31st January last. He pleaded not guilty; Mr. C. Bower prosecuted and Mr. R. Garrard defended. Without retiring, the jury found the accused "Not Guilty" through lack of evidence, and Mr. Justice Burdett acquitted him without a stain on his character.

There has been little improvement in the standard of debating this year; though perhaps better than complete silence, froth and bubble are no substitute for solid argument. None the less, the society had a very successful year with its lively and its serious moments. It looks forward to another successful programme next year.

CAROLINE WATTS and D. V. RUDD.

STUDENT CHRISTIAN MOVEMENT

During this year the S.C.M. has been very active, meeting in the Library on Sunday evenings. We are pleased that the meetings have generally been well attended.

This year we have taken as our general theme "World Problems" and we have had a variety of speakers, including Mr. F. C. Carter, Appeals Secretary of the Oxford Committee for Famine Relief. As a result of his visit the School has conducted a collection of clothes and money for the refugees in Hong Kong.

Other speakers have discussed "The problems of evolution and Genesis", "Missionary nursing in India" and "Teaching in a Christian school in Japan". During the year we have also had two "Fact and Faith" films, one called "God of the Atom" and the other "The Stones Cry Out" about archeological discoveries in the Middle East confirming Biblical Stories.

We conducted services in Wymondham and Sutton, visited the Regional S.C.M. conference in Norwich, and we also held our own conference one Sunday afternoon, when a member of the Education Committee gave us a talk on "What it means to be a Christian".

The Committee would like to thank all those who gave up time to come and talk to us, and to Mr. Swift, who organised the Society, we extend our special gratitude.

L. S. KETT.

SWISS REFLECTIONS

Hotel Alpenose lay in the beautiful valley of the rushing Kander River, surrounded by glistening, snow-capped peaks. As the downy clouds lifted each morning one could see the river winding its way through the clusters of chalets. At once it was obvious how proud the Swiss are of their beautiful country. Everywhere was spotlessly clean and the mountain slopes had been repeatedly cropped for hay. Such a delightful smell! Brilliant scarlet geraniums hung everywhere; from the window boxes, above doors, and even the stations were decorated with them.

A path meandered through a belt of majestic firs and pines; through a carpet of delicate harebells and regal globe-flowers, and then across God's own garden, a flat glaciated valley. The summits on its flanks reached for the sky, water-falls gushed from hanging valleys, and gnarled stunted evergreens stood out against the rock. Here the river was crystal clear with colonies of rushes and emerald green liverworts. Its banks were clothed in yellow rock-rose intermingled with the blue alpine fleabane and white scop, both robust daisies.

Among the scree, natural rock gardens had been created — a treasure trove. Majestically towering above all other vegetation here was the turkscap lily. The flowers of this plant, which may grow to a height of four feet, have six purplish dark-spotted recurved petals, giving the flower a turban-like appearance. In attendance were grouped the early purple orchid, the delicate lilac-coloured fragrant orchid, and quietly hidden, the fragile white butterfly orchid.

Clumps of rock plants were growing on stony ledges. The cobweb and common house leeks, with their deep pink flowers will be familiar to many. White mountain saxifrage had silver green leaves, scalloped with silver thread and arranged in a dense basal rosette. The flower stem was about six inches high, red in colour and carrying numerous white rounded flowers. Similar was the star saxifrage, a smaller plant with petit pointed five-petalled flowers. Interspersed with these were the yellow two-flowered violets, the insectivorous butterworts and the white dryas or mountain avens. This shrublet which grows occasionally in limestone districts of the Pennines, was found among rocks, scree and sparse turf. It had a much branched shallow rooting stem system while the evergreen leaves were oval and deeply cut. Their upper surfaces were a vivid green, but silver-white and cottony beneath. The long stalked flowers were large and white. Its fruits were composed of numerous feathery fruitlets which looked somewhat like silver-grey dishevelled wigs.

Towards evening we would see families making their way back to the village, each clutching a handful of wild flowers, while bunches of pink alpine rose were tied to their knap-sacks. These people have a sincere, innate love of this wonderful country, as was evident from their frequent walks into the mountains, and the serene, contented expressions on their faces.

It drizzled continually the day we visited Blatten in the Loetschental. This village was built on the slopes of mountains which rose directly from the bed of the little gushing river. The dirty houses were built one on top of another, and had no geraniums, while many of the peasants sat idly on the steps. It did not seem a bit in keeping with the country we had grown to know. But once behind us, the valley evoked some deeper feeling. There were only a few gnarled trees high up. The rest of the land, where cultivation was at all possible, had been put to some use. Large areas of lower mountain slopes had been cut for hay, while other industrious folk had made tiny gardens, some no more than two yards square, in which to grow a few root crops.

Among huge rocks different species of plants were to be found, especially the white, mauve and golden vetches, not to forget the abundance of deliciously sweet, wild strawberries.

But the centre of the lives of the inhabitants of this valley seemed to be the little church. Everybody, old or young, stopped on his way for a few minutes. It was a building of contrasts — plain, bare stone walls and pews in keeping with the somewhat stark landscape; but the magnificent carved gilt screen, reaching to the roof above the altar, struck one with a sense of awe. Neither will the wayside shrines be forgotten, for these, too, were evidence of the reverence shown by these pious people for God. The day in the Loetschental was a memorable one in a memorable holiday.

PAULINE SHARPLEY.

VISIT TO DORSET

This year, instead of going to Wales or the Pennines, a combined geology and geography party went in search of new territory. The south coast in Dorset suited the requirements of both departments quite well and so, with fewer people than last year, the party set off with Swanage as the destination. The presence of Miss Chipperfield and Miss Shephard on the trip partly made up for the absence of Mr. Staveley who, although he did his utmost, was unable to join us.

The object of the expedition was to study the coastal topography and geology of the Isle of Purbeck. The party was based at the Youth Hostel in Swanage, and from there parties radiated out to places of geological interest. The coast was the favoured haunt of the parties who not only concerned themselves with cliff sections, but with the temperature of the sea as well.

The coach was called upon during the trip to take the party on excursions, and we went first of all to Portland and then to Southampton. In Southampton,

after visiting the factory where Ordnance Survey maps are made, the party took to the boats and saw the harbour.

A matter of some surprise was the fact that the weather, after the first day when it rained, was fine and sunny and all the members, whether they wanted to or not, became suntanned. This, with the excellent food given us in the hostel by the Warden and his wife, who seemed to take a maternal interest in everyone, gave the party that 'outdoor' appearance that participants in expeditions should have.

After eight days most of the general work on the Isle had been done and unless a detailed survey was to be carried out, which we could not attempt under the circumstances, it was time to return home. It was, however, with mixed feelings of regret and satisfaction that we turned our backs on Swanage, regret for the scenery and material we would be leaving, and satisfaction for the work we had done.

VACATION COURSE

The aim of this Easter vacation course was to give students some idea of the range of industry in East Anglia. For the week involved we were very comfortably accommodated in Lincoln Hall. The group numbered twenty in all, including Mr. Goman.

The course included visits to many firms in East Anglia. On the first day we travelled to Lowestoft, where we gained some knowledge of small scale shipbuilding at Brooke Marine Limited. The second day consisted of two visits in Peterborough. Firstly we went to Peter Brotherhood Ltd., where we were given some idea of general contract engineering, and then later to F. Perkins Ltd. This second visit provided an extreme contrast, for here we witnessed the mass production of diesel engines, calling for extensive planning of operations. The bus carried us to Ipswich on the third day for visits to Ransomes and Rapier Limited, a heavy engineering firm, specialising in excavating machinery, water control equipment, contractors' equipment, and mobile cranes, and to Ransomes Simmes and Jeffries Limited, who are concerned with the manufacture of agricultural implements and machinery. The next day found us in Cambridge, when we called at Marshalls' Flying School Ltd., and here we were made to realise how closely aircraft construction is linked with coachbuilding. Also in Cambridge, at the Pye factory, we saw how radio and television sets are turned out in such vast quantities along with other electronic scientific instruments.

The last day included visits to Norwich Gas Works and to the Norwich Generating Station where we learned something of power production.

In spite of being almost walked off our feet we found the course very interesting and beneficial. We extend our thanks to Mr. Goman for his considerable efforts on our behalf and we hope that further courses of this kind will be arranged in the future.

N. ALDEN.

VISIT FROM GERMANY

On July 18th 1958, a party of girls from Wymondham College entertained for a fortnight, at the College, a group of girls from Göttingen, Germany. During that time they visited such places as Ely Cathedral, Cambridge University, Windsor Castle, the Norfolk Broads, Holkham Hall and Sandringham House, where they saw members of the Royal Family.

The party enjoyed a day in London, visiting Buckingham Palace, The Tower of London, Houses of Parliament, Trafalgar Square and the lights of Piccadilly Circus. They spent a night at a hostel in Baker Street and then continued their journey to London Airport where a conducted tour had been arranged.

On both Sundays each English girl entertained one German girl at her house.

On 1st August, the German and English girls left Wymondham College for their homeward journeys after a most interesting and enjoyable holiday, and for this we owe our thanks to Mr. Dudley who organised the programme.

M. EMPSON.
